

Did you know?

Most employers form an opinion about whether you're a suitable candidate before you even say hello.

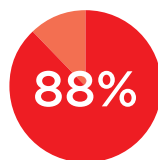

First impressions are made in seconds, and there's no second chance to remake them.

This employment program was created to provide knowledge, resources, and real opportunities for job seekers.

This single-day workshop features engaging speakers covering: appropriate attire, body language, mindset, emotional intelligence, confidence building, stress management, and financial literacy.

of clients agree
suitable impressions
helped with job search

of clients agree that
clothing received helped
with job search

We provide:
